EXECUTIVE SUMMARY

Director of Internal Audit with 20 years closing the gap between stated governance and actual operational exposure, CAE at Kitopi through its pre-IPO phase and Group Director of Internal Audit and Risk at Al-Faisaliah Group (JSC), Riyadh. Built Python and AI-powered audit infrastructure that replaced sample-based testing with 100% population coverage, recovered and protected AED 7.7M in billing and commercial exposure that was invisible to the executive team, identified SAR 15M in M&A risk before close, and reduced fraud losses 78–82% through predictive monitoring that scaled against a 340% transaction volume increase without adding headcount. Author of five books on audit, risk, and fraud detection. Published in IIA Internal Auditor Magazine, GRC Report, and Consultancy ME.

Core Competencies: Corporate Governance | SOX 404 & ICFR | Enterprise Risk Management | M&A Due Diligence | Fraud Elimination | Python & AI Audit Analytics | Power BI Risk Intelligence

PROFESSIONAL EXPERIENCE

Veritux Consulting Network | Dubai, UAE
Principal – Internal Audit & Risk Advisory | Jul 2025 – Present
Identifying and closing governance and operational risk gaps for boards and senior leadership: concurrent engagements in USA, UAE and KSA.

- **Regulatory Compliance Architecture:** Designed and implemented a risk-based internal audit framework for a UAE real estate developer, establishing the controls infrastructure required for sustained **RERA regulatory authorisation** and reducing exposure to enforcement risk.
- **Family Office Governance Build:** Constructed audit committee governance from foundation for a Saudi family office - board charters, risk oversight protocols, and reporting structures meeting **Saudi CMA Corporate Governance Regulations**, providing the governance framework required for future capital market activity.
- **Risk & Controls Advisory:** Delivering concurrent independent risk assessments and control evaluations across client portfolios spanning operational, financial, and regulatory risk domains across **UAE and KSA** markets.

Kitopi (Cloud Kitchen Technology Company) | Dubai, UAE
Director of Internal Audit | Jun 2022 – May 2025

- **SOX 404 ICFR:** Built Kitopi's ICFR programme from zero, the governance prerequisite for its pre-IPO trajectory. Delivered a clean first-time external opinion on a technology-heavy cloud kitchen operation with no SOX history: no material weaknesses, no significant deficiencies.
- **Aggregator Billing Controls:** Identified **AED 3.2M in recoverable billing overcharges** and closed the control gap responsible for **AED 4.5M in future exposure** through an automated continuous monitoring suite.
- **Audit Intelligence Platform:** Designed and deployed a Python/Pandas population testing engine that replaced sample-based testing with 100% transaction coverage across 7 audit domains, Board approved enterprise-wide deployment, converting the audit function from a cost centre into a commercial intelligence asset.
- **Fraud Detection:** Reduced fraud incidents **78%** against a **340% transaction volume increase** through automated exception reporting and predictive transaction monitoring.

- **IPO Governance:** Appointed to IPO Steering Committee as IA representative, cross-functional governance oversight across the full pre-IPO track. Built the audit and IT security assurance team from inception to support the programme (3 auditors, 2 IT security professionals).

Al-Faisaliah Group (JSC) | Riyadh, KSA (Diversified Saudi conglomerate: hospitality, retail, real estate and FMCG)
Group Director of Internal Audit & Risk | Nov 2016 – May 2022
(Audit Committee Member, AFG Restaurants Sector | Feb 2021 – May 2022)

- **M&A Due Diligence:** Conducted in-house due diligence on a $127M acquisition, identified SAR 15M in previously undisclosed litigation exposure, enabling renegotiation before close.
- **ERM Architecture:** Designed and deployed a Board-commissioned risk intelligence framework across a four-sector conglomerate (hospitality, retail, real estate, FMCG), giving the Audit Committee its first consolidated view of cross-portfolio exposure across sectors that previously operated independently.
- **Fraud Analytics:** Reduced fraud losses **82%** and recovered **SAR 4.2M annually** through predictive monitoring of high-risk supplier and procurement payments.
- **Function Architecture:** Scaled the audit function from 3 to 20 professionals across four sectors and 10+ GCC markets, achieving IIA 'Generally Conforms', the highest external quality rating, independently confirming the function operated at international professional standards.
