EXECUTIVE SUMMARY

Strategic Group Director of Internal Audit and GRC with over 20 years of experience across the GCC, specializing in bridging the gap between theoretical governance and operational reality. Trusted advisor to Boards and Audit Committees — mandate spanning complex special investigations, ethics programme ownership, and cybersecurity vendor governance — moving beyond traditional compliance to proactively safeguard commercial integrity. By integrating custom AI, Machine Learning, and Deep Learning engines into the audit lifecycle, transformed legacy sampling methodologies into full-population audit coverage.

This technology-enabled approach has recovered AED 7.7M in revenue leakage, neutralized SAR 15M in hidden M&A risk, and institutionalized robust governance for KSA Vision 2030 giga-projects. A proven catalyst for evolving internal audit from a traditional cost center into an agile, commercial intelligence asset.

PROFESSIONAL EXPERIENCE

Veritux Consulting Network

Principal, Internal Audit & Risk Advisory

Dubai, UAE

Jul 2025 – Present

- **Institutional Transformation:** Partner with CFOs and Boards to institutionalize robust financial governance, stabilizing multi-sector operations and ensuring long-term regulatory health.
- **Forensic Audit & ML Risk Engine:** Deployed an automated ML risk engine to monitor SAR 500M+ in CapEx and OpEx across a KSA real estate developer's residential and commercial portfolios; recovered SAR 3.2M annually by surfacing procurement and payment anomalies at a scale and speed beyond conventional sampling.
- **National Market Readiness:** Construct Board-level financial charters and reporting frameworks for Saudi Family Offices, establishing the critical governance foundations required by the Saudi CMA for institutional capital market activity.

Kitopi (Tech-Driven Unicorn)

Director of GRC & Internal Audit

Dubai, UAE

Jun 2022 – May 2025

- **Operational Risk Assurance:** Deployed a technology-forward assurance framework utilizing ML-driven anomaly detection and Deep Learning OCR pipelines — processing high-volume manual invoice bundles to convert previously sample-dependent domains to full-population coverage. Safeguarded operational margins and reduced fraud incidents by 78% during a 340% surge in transaction volume.
- **IT Governance & Cybersecurity Assurance:** Architected the ITGC framework for a rapidly scaling cloud platform; directed group-wide cybersecurity assessments and Penetration Testing, translating technical vulnerabilities into Board-level risk-mitigation plans.
- **IPO Governance Readiness:** Engineered the ICFR programme from inception for a pre-IPO trajectory, resulting in an EY external readiness attestation with zero material weaknesses and zero significant deficiencies.
- **Ethics Programme & Whistleblowing:** Owned the Group's ethics and whistleblowing infrastructure end-to-end — selected NAVEX EthicsPoint through a competitive vendor evaluation, designed the case management framework and escalation protocol, and reported case pipeline and resolution status directly to the Audit Committee; led executive engagement on investigations and corrective actions.
- **Special Investigations:** Led high-stakes internal investigations including a CAPEX governance breach

inquiry; managed investigation design, evidence integrity, and executive-level reporting while maintaining strict auditor independence throughout.

- **Commercial Integrity Monitoring:** Recovered AED 3.2M in vendor overcharges and neutralized AED 4.5M in future exposure through the deployment of automated, continuous monitoring suites.
- **Data-Driven Audit Transformation:** Built an automated Python and Pandas ecosystem for continuous transaction monitoring across seven audit domains — automating flagging logic, workflow routing, and exception reporting — elevating the audit function from periodic review to an always-on commercial intelligence unit.

Al-Faisaliah Group (JSC)

Group Director of Internal Audit & Risk

Riyadh, KSA

Nov 2016 – May 2022

- **Digital Governance Transformation:** Commanded audit oversight for an enterprise-wide migration from G-Suite to MS Office 365, ensuring 100% data integrity, security resilience, and rigorous post-migration compliance across a highly diversified portfolio.
- **Cybersecurity Vendor Governance:** Led the competitive selection and strategic onboarding of AT&T as Group MSSP — owning vendor evaluation criteria, contractual governance, and ongoing SLA oversight — significantly hardening the Group's security posture and data protection frameworks.
- **M&A Due Diligence:** Orchestrated internal due diligence for a \$127M acquisition, uncovering SAR 15M in undisclosed litigation exposure and providing critical leverage for strategic renegotiation prior to closing.
- **Special Investigations:** Led multiple special investigations across the Group's diversified portfolio — spanning procurement irregularities, supplier conduct, and related-party concerns — managing end-to-end investigation lifecycle from case intake and forensic review through to Board-level reporting and remediation tracking, independent of management.
- **Enterprise Risk Management (ERM):** Deployed a Board-commissioned ERM framework that consolidated cross-portfolio exposure across four distinct sectors, delivering a unified, top-down view of group-wide risk for the first time.
- **Fraud Prevention & Detection:** Generated SAR 4.2M in annual savings by deploying predictive ML monitoring across high-risk procurement and supplier payment lifecycles.
- **Function Professionalization:** Scaled the internal audit division from 3 to 20 multinational professionals, attaining the IIA 'Generally Conforms' rating—the highest external quality assessment available.
