Board-facing assurance for complex, multi-brand operating environments.

By shifting from traditional sampling to data-driven population testing, I uncover the operational and governance gaps that standard compliance exercises miss, securing millions in at-risk capital.

Core Advisory Mandates (1/2)

1. Fraud & Forensic Diagnostics

When you suspect leakage but standard audits return clean.

- ▶ **Methodology:** Complete population data extraction and algorithmic anomaly detection.
- ▶ **Outcome:** Rapid identification of control circumventions and revenue leakage.
- ▶ **Proof Point:** Recovered **AED 7.7M** in a single engagement from the 95% of transactions standard sampling missed.

2. Audit & Governance Transformation

When your internal audit acts as a compliance checkbox.

- ▶ **Methodology:** Restructuring audit programs to align directly with board-level commercial risks.
- ▶ **Outcome:** A lean, high-velocity audit function that operators trust and the Board relies on.
- ▶ **Proof Point:** Reduced fraud incidents by **78%** during a 340% transaction volume surge at a GCC holding group.

Core Advisory Mandates (2/2)

3. Pre-IPO & M&A Diligence

When preparing for capital markets or acquiring targets.

- ▶ **Methodology:** Stress-testing ITGC and governance frameworks against stringent regulatory standards.
- ▶ **Outcome:** Bulletproof narratives that withstand underwriter scrutiny.
- ▶ **Proof Point:** Uncovered **SAR 15M** in hidden exposures during buy-side due diligence, shifting negotiation leverage entirely.

4. Enterprise Risk & IT Governance

When boards need quantifiable assurance over cyber risks.

- ▶ **Methodology:** Board-commissioned ERM framework design and cybersecurity vendor governance (MSSP).
- ▶ **Outcome:** Quantifiable risk reduction and structured threat monitoring.
- ▶ **Proof Point:** Built an ERM framework that informed a corporate insurance strategy overhaul, reducing Group premiums by **15%**.

The Operating Thesis & Industry Validation

Business Problem First. Controls Second.

A control that stops the business from operating is a failed control. I do not sell "best practice" compliance binders that gather dust. I build and audit controls that reflect commercial reality, utilizing automated data pipelines to monitor risk continuously without slowing down operations.

"Majid approaches complex matters with maturity and calm... his recommendations are always grounded in a deep understanding of both risk and business impact. Any organisation would benefit greatly from his leadership."

— **Sally Swanepoel, Founder (Former Colleague at Kitopi)**

"His ability to bridge the gap between complex risk environments and practical, actionable business solutions is unmatched. Majid is a rare breed of auditor who actually understands how a business breathes."

— **Steve Skoien, CEO**

Engagement Models & Deployment

Available for deployment via **Catalant**, **Veritux**, or **Direct Independent Contract**.

- ▶ **Targeted Diagnostics (2–4 Weeks)**

Intensive sprints to validate a specific risk or forensic suspicion using full-population data extraction.

- ▶ **Transformation Projects (3–6 Months)**

Extended mandates to rebuild governance frameworks, set up whistleblowing channels, or prepare for an IPO / Listing.

- ▶ **Fractional CAE Advisory (Ongoing)**

Retained, board-level assurance for family offices and holding groups needing senior oversight without a full-time overhead.
